## **DETAILED ACTION**

### ***Continued Examination Under 37 CFR 1.114***

1. A request for continued examination under 37 CFR 1.114, including the fee set forth in 37 CFR 1.17(e), was filed in this application after allowance or after an Office action under *Ex Parte Quayle*, 25 USPQ 74, 453 O.G. 213 (Comm'r Pat. 1935). Since this application is eligible for continued examination under 37 CFR 1.114, and the fee set forth in 37 CFR 1.17(e) has been timely paid, prosecution in this application has been reopened pursuant to 37 CFR 1.114. Applicant's submission filed on 4/14/2011 has been entered.

### ***Information Disclosure Statement***

2. The information disclosure statement (IDS) submitted on 4/14/2011 and 5/10/2011 was filed after the mailing date of the Notice of Allowance on 2/28/2011. The submission is in compliance with the provisions of 37 CFR 1.97. Accordingly, the information disclosure statement is being considered by the examiner.

### ***Reasons for Allowance***

3. Claims 75, 77-79, 82, 84-92 and 95-99 are considered allowable since when reading the claims in light of the specification (MPEP § 2111.01) or *In re Sneed*, 710 F.2 1544, 1548, 218 USPQ 385, 388 (Fed. Cir. 1983), none of the references of record alone or in combination disclose or suggest the combination of limitations specified in

independent claim 75, wherein the Applicant discloses wherein the first GUI further comprises a price window having a monetary value that varies depending on which of the selectable first or second options of the download option list is selected, the price window comprising a field within the first GUI.

The closest prior art of *Hoang* (U.S. Patent No. 6,557,030 B1), discloses a system and method for providing video on demand services for broadcasting system. The DOD system includes central controlling server, a central storage and a plurality of channel servers. When access is granted, the decoder decodes data blocks to transform into images displayable on an output screen, where the decoder supports commands for a subscribing client. The DOD interactive features permit a client to select at any time an available data file.

The prior art of *Kusaba* (U.S. Patent No. 6,510,556 B1), discloses a video distribution apparatus for storing video data and distributing it to a viewer has a memory for video data and a schedule table for holding a distribution schedule of the stored video data. A controller controls the distribution of the stored video data. A reservation request includes a title of the video data to be distributed, a channel to be used for distribution of the video data of the title, and information to designate a time to start the distribution.

The prior art of *Lett* (U.S. Patent No. 5,592,551 A), discloses a television system that includes an electronic program guide giving a schedule of programs available on the television system including pay-per-view and video-on-demand programs. The user may select programs for watching or recoding directly from the electronic program

guide, where the selected programs may include pay-per-view and video-on-demand programs, which may be purchased directly from the guide.

The prior art of *Hicks* (U.S. Pub. No. 2004/0261112 A1), discloses multimedia on demand services that can be provided by automatic downloading of selections of multimedia content items to a mass storage device. A user can select usage (e.g. playing, purchasing) of the locally stored multimedia content items, and that usage can be reported to the multimedia on demand service provider.

However, none of the references alone or in combination teach wherein the first GUI further comprises a price window having a monetary value that varies depending on which of the selectable first or second options of the download option list is selected, the price window comprising a field within the first GUI.

Inter alia, independent claim 92, wherein the Applicant discloses providing a download option list and a price window in the first GUI, the download option list comprising the download options, a monetary value in the price window differing depending on which of the plurality of download options are selected, the price window comprising a field within the first GUI, is allowed for reasons similar to those cited above.

4. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
